

METAPHYSICAL WALL

This small cliff is on the back of Chinaman's Peak, near the descent trail.

Approach

Park at the Goat Creek trailhead, 0.3 km beyond Whiteman's Pond on the Spray Lakes Road. Across the road is a low, streaked cliff with slabs above and below. Metaphysical Wall is at the right end of this cliff. Cross the Spray Lakes Road and walk up a short, gated road to a level area near where the diversion canal enters a tunnel (fenced). Scramble up slabby slopes to reach the routes, which are directly above at this point. The approach takes about 5 minutes.

METAPHYSICAL WALL
