

The new wall called "The Painted Wall" is located west and around the corner from Larry's Gym on the south side of Canyon Creek. The wall faces west and gets great afternoon sun. The first route can be found 30-40 right of the dedication plaque for Larry Osterander. These climbs are all very good, involve steep 5.10 climbing. Although extensive cleaning was done, friable rock can still be found here! Wearing a helmet is recommended for these climbs and all climbs at Moose Mountain.
